Whereas, in the course of Divine Providence, the Hon.
John Brooks of Princeton, who had been appointed by

before its organization removed by death:

And whereas from our personal knowledge of the
distinguishing traits of his character & the great

terests we have been appointed to subserve:

Therefore, Resolved that in the decease of the Hon.

Commonwealth of a public servant than whom no
one could be more devoted to her interests or more
faithful to all her trusts.

irreparable loss they have sustained, & our desire &

Mr. Marston made a statement in regard to his investigations in regard to the Smith will & fund at Northampton.

Voted to hear gentlemen present from Northampton in regard to a location there.

Mr. Erastus Hopkins said that the people of that town were ready to welcome the trustees, that he had supposed that the difficulties if any in regard to the use of the Smith fund could be surmounted, that without reference to that fifty thousand dollars had recently been subscribed, & that seventy-five thousand would be raised.

Mr. H. K. Starkweather, chairman of the Selectmen stated that the townspeople manifested a strong desire to have the trustees take charge & manage the fund left for the purposes of an agricultural School by Oliver Smith, & that all desirable facilities would be afforded for a location there. He also assured the trustees that the feeling of the neighboring towns was 'all right' there being a general wish to have the location at Northampton.

The Trustees met at the office of the Secretary of the State Board of Agriculture in accordance with the following call:

To Charles L. Flint Esq. Secretary of the Board of Trustees of the Massachusetts Agricultural College.

You are requested to call a meeting of said Trustees as soon as convenient, at the State House to see what measures may be taken to procure an appropriation by the Legislature in aid of said College.

Marshall P. Wilder
Henry F. French
D. Waldo Lincoln
Trustees of Mass. Ag. Col.

Signed

Mar. 9th 1864.

Present Messrs. Andrew Colt Davis Dodge Dwight, Flint, French Lathrop Lincoln Sewall Southmayd & Stedman.

His Excy the President in the chair. Mr. Dodge reported what action had been taken to procure an appropriation for the purpose of defraying the necessary expenses of the Trustees.

Mr. French stated the reasons for calling the meeting & the necessity of having some means to work with, & read the form of an appeal to the Legislature on the subject.

His Excy thought it was competent for the Legislature to assume the one tenth of the scrip set apart by the Act of Congress to purchase land at a valuation of $36000.

Mr. French thought we needed at least $120.000 to authorize the trustees to go forward & build, or $75.000 from the town where it should be proposed to locate & $45.000 from other sources.

Mr. Davis had some doubts as to whether it was strictly competent for the Legislature to assume the 2/3rds scrip at $36,000.

The President suggested that the whole amount might be put upon the market by authority of the governor & Council & that the trustees might exert an influence to have it taken up at a dollar an acre by the friends of the College, the amount to constitute a fund in the State Treasury the income of which would be payable to the College. The States had not manifested a readiness to unite in any action to sustain the scrip.

Mr. Stedman stated that the subscriptions in the valley of the Connecticut were intended to be cash. If the Board should see fit to locate in Chicopee the $75.000. would be raised there.

Mr. Sewall read a letter from Hon. F. B. Fay of So. Lancaster suggesting a location in that town.

Mr. Dodge read a communication from Dr. Hill President of Harvard College expressing the opinion that it would be a great mistake in the trustees not to avail themselves of the Bussey property.

Mr. Stedman thought we might be in danger of getting too much land.

Mr. French offered the following resolution which was adopted.

Resolved that a committee of three be appointed to memorialize the Legislature on behalf of this Board to authorize the sale of one tenth of the land scrip granted by Congress by Act of July 2nd 1862 & the appropriation of the proceeds thereof to the purchase of lands for sites & experimental farms by the trustees of the Mass. Agricultural College. Also to grant to the Mass. Agricultural College annually an amount

of money equal to the interest on the 5/10 of the land devoted by said Act of Congress to said College, until said scrip shall be sold & yield the requisite income.
Resolved that this Board concur with the Board of Agriculture in the following resolution to wit.
"Resolved That in order to facilitate the action of the Corporation of the College, we respectfully suggest to the Honorable Senate & House of Representatives, an amendment of the sixth section of the Act incorporating the Mass. Agricultural College, so as to read that "the location, plan of organization, government & course of study prescribed for the College be subject to the approval of the Governor & Council" instead of "to the approval of the Legislature."
Messrs. French, Dodge & Lincoln were appointed on the committee.
Voted That the communication of Dr. Hill be placed on file, & that Messrs. Dodge & Flint be a committee to acknowledge its reception or take such action as may be necessary.
Voted that the committee appointed to memorialize the Legislature have power to fill any vacancy that may occur in its number.
Voted That when the Board adjourn it be to meet at this place on Thursday the 31st inst. at 12 o'clock.

The Trustees met at 11 oclock A.M. Present His Excy Gov. Bullock & Messrs. Colt Davis Dodge Durfee Flint Hills Lathrop Lincoln Marston Newell Stedman Washburn & Whiting.

The Executive Committee to which was referred the consideration of the sale of any part of the College farm reported that it was inexpedient at the present time to sell any portion of said farm.

Mr. Durfee as Treasurer stated that the bill of Mr. Richards had been paid in accordance with the vote of the May meeting.

Gen. Marston submitted the Report of the committee on the nomination of President, as follows:

The Committee of the Trustees of the Massachusetts Agricultural College appointed to consider the matter of the selection of a President of the College have attended to the duty so far as was practicable & now report:

After the various interruptions which we have encountered we regard it of the first importance that no further delay should occur in opening the institution to the public, but that it should be put in operation in the autumn of the present year, as was contemplated before the resignation of Mr. Chadbourne. That conclusion requires that the Office of President should be filled at once. Whatever possible benefits might come from further enquiry & consideration for the best man for the place, should we think give way to the exigency for immediate action.

Weighing the qualifications of all men who have been

mentioned in connection with the place, who are now available, the committee have no hesitation in recommending the election of Prof. William S. Clark of Amherst. He is too well known to the Trustees to require any statement of his fitness from us. We content ourselves with simply announcing the conclusion to which we have arrived & which is respectfully submitted.

The committee to whom was referred the application of Mrs. E. L. Smith for the payment of the loss incurred in taking charge of the Boarding House at the College from Sept. 1857 to Sept. 1858 respectfully report:

That Prof. Washburne, while President, contracted with Mrs. Smith to keep the boarding house, take boarders at $3.00 per week, & to receive milk & vegetables, to such extent as the farm could furnish them at wholesale prices; that in accordance with this agreement she commenced the business at the college & during the latter part of the first term informed Pres. Clark that she was falling behind hand & could not continue; that he encouraged her to continue, under the well founded belief that it would be detrimental to the college during the first year to raise the price of board & to the assurance which had been given to the students & the public that board might be obtained for $3. per week; that she continued the business till the end of the year. The committee find that Mrs.

[illegible] the want of a good manager, & partly [illegible] partly from a former experience in keeping a much higher priced boarding house elsewhere. The Com. are satisfied that board proper for the students could not be furnished at $3. a week, and it is, they understand, that board is now furnished for $3.50 a week, & there is no question that it can be furnished at a fair profit at the price. The Board are under no legal or equitable obligations to Mrs. Smith or her creditors. The house rent was furnished free, she has received $117. extra in provisions which have been furnished her & the Assistant Treasurer has accepted an order for $200. in favor of one of her creditors. Her debts without interest amount to $3170.0[illegible] in Boston & to $1761.92 in Amherst which latter amount includes the order for $200. unpaid. The Committee recommend the passage of the following vote:

Voted that the Treasurer when in funds which may be properly devoted to that purpose, be authorized to pay to the order of Mrs. Smith an amount equal to fifty cents per week extra for each student boarded by her at $3. a week, as follows: 1st the amount of the order for two hundred dollars: 2nd the balance to be divided proportionally among all the said creditors, provided that Mrs. Smith shall give orders for that purpose & a discharge of all claims against the college.

Whereas the Trustees have this day been informed that the Treasurer George Montague has without authority & without consideration undertaken to pay the late President's salary by a note signed by him as Treasurer of the College and

Whereas the Treasurer has never been authorized to give the note of the College except by special vote of the Trustees,—

The preamble & vote were unanimously adopted.

Mr. Cummings then presented the Report of the Committee on Reorganization which, with some amendments was adopted as follows:—

The Committee after careful consideration of the present & prospective income of the College submit the following recommendations for reorganization with a view to bringing the expenses within the income.

1st Abolish the Professorship of Mental & Moral Science.

2nd Reduce the Salary of the Treasurer to $4000.

3rd Dismiss the Farm Superintendent & appoint

a foreman who shall be under the direction of the Committee on the Farm at a salary not exceeding five hundred dollars.

4th Equalize the salaries of the professors & Prices as follows:

Prof. Stockbridge to have	$1800	and Rent.
Prof. Graves to have	$1800	and Rent.
Prof. Goessmann " "	$2000.	
Prof. Goodell " "	$2000.	
Prof. Maynard " "	$1500.	and House-rent.
Mr. Clark " "	$ 700.	
The Treasurer " "	400.	
Foreman on the farm not over	500.	
	$10,700	

This, not including any salary for the President, will secure a reduction of expenses as follows:-

President's Salary — —	$4000.
Two professors $250. each	500.
Prof. Parker's salary	2250.
Superintendent of Farm	500.
Treasurer	300. = $7550.

From this is to be deducted the $500. which it is proposed to add to the salary of Prof. Maynard.

The income may be estimated at about $14,000.

The general incidental expenses, coal, janitor's work, repairs &c may be estimated at about $3500. the amount last year.

It is believed that the janitor's expenses may be reduced at least $400.

These changes will bring the expenditures slightly within the estimated income, & leave only a small margin.

Boston March 7th, 1885.

A special meeting of the Board of Trustees of Massachusetts Agricultural College was held this date at 12 o'clock, noon, in the hall of the New England Agricultural Society, 45 Milk Street, Boston. The meeting was held at this place on account of difficulty in finding room at the State House. The meeting was called to hear the report of the building committee in accordance with the vote passed at the meeting of February 12th

The following members were present: James S. Grinnell, Vice President of the Corporation, who presided; President Greenough of the College, Daniel Needham, James H. Demond, Wm. R. Sessions, George Noyes, Wm. H. Bowker; and Treasurer Hadwen was also in attendance.

The records of the previous meeting were read and approved.

President Greenough, Chairman of the Building Committee, reported that the estimated cost of rebuilding the Dormitory recently destroyed by fire would be about Thirty thousand Dollars, but it was thought advisable not to decide upon a definite plan of construction until it could be determined to what extent the legislature would meet the demand for that purpose.

Voted, On motion of Daniel Needham, That the Board of Trustees make application to the legislature for an appropriation of Twenty thousand Dollars to be used together with the amount to be recovered from the insurance companies in the rebuilding of the dormitory destroyed by fire.

Voted, That a further application be made for the sum of Three thousand, five hundred Dollars to furnish steam heating apparatus for the proposed new dormitory building; and the sum of Two thousand, five hundred Dollars to furnish the recitation and lecture rooms of the new building.

President Greenough stated that the College was sadly deficient in apparatus and equipments for doing thorough work in the scientific and educational departments. It was therefore Voted, That the Board of Trustees make application to the legislature for an appropriation of Five thousand Dollars to furnish the necessary apparatus and equipments for doing the scientific and educational work of the college.

On motion of Daniel Needham
Voted, That the thanks of the Trustees of the Massachusetts Agricultural College be given to the Hon. Charles L. Flint,

for the great service he has rendered the Board as Secretary, which service most faithfully rendered has been cheerfully and voluntarily given for a time dating back to the early records of the existence and organization of the College.

The meeting then adjourned

Boston, June 18, 1885.

A special meeting of the Board of Trustees of the Massachusetts Agricultural College was held this day at the State House, Annex, Boston. The call was issued at the request of the President in view of the recent appropriation to the College by the Legislature. The records of the previous meeting were read and approved.

Mr Wilder called the meeting to order and presided until the arrival of Vice President Grinnell, who then took the chair.

President Greenough having made a statement that he had ascertained by calling upon the Governor that the appropriation bill would not reach its final stage of enactment until the latter part of the day; it was therefore the sense of the meeting to proceed with any other business which could legitimately come before the Trustees of the College.

President Greenough then raised the question of electing a Baxter of the College, a position

made vacant by the retirement of Mr. Taft.

After considerable discussion it was

Voted, On motion of Col. Needham,

That a committee of two be appointed by the chair, who, with the treasurer, be requested to see what arrangements can be made with the Cashier of the First National Bank of Amherst for the keeping of the books and disbursement of the funds of the College. The Chair appointed Col. Needham and President Greenough as the said Committee of two.

The Committee appointed at a previous meeting to consider the matter of conferring Honorary Degrees reported that they had considered the subject and desired further time. Signed by Daniel Needham and John E. Russell.

President Greenough having made a statement regarding the necessity of engaging an assistant chemist to Professor Goessman,

Voted, That Mr. Charles E. Wellington, who was strongly recommended by Professor Goessman, for the appointment, be elected assistant chemist at a salary of $1.500 per year.

Voted, That the whole matter of leasing any portion of the lands of the College to the Experiment Station be left with the Executive Committee.

Voted, On motion of Mr. Sessions, That the President of the College be requested to inform the members of the Senate of the time of the examination of candidates for admission as students of the College, on the basis of the State Free Scholarships.

Voted, On motion of Col. Needham, That the Secretary be requested to look up all precedents in the records of the College as to the time of the beginning of service of any newly elected professor of the College.

Voted, On motion of Mr. Knowlton, That the management of any incidental repairs on the plant house be referred to the Executive Committee.

President Greenough called the attention of the Board to the request of the United States Commissioner of Agriculture that delegates be appointed from the several Agricultural Colleges and Experiment Stations of the Country to represent them at a National Convention to be held at Washington, July 8, 1885. It was therefore

Voted, That the Chair appoint a Committee of three

to retire and report the names of three delegates to represent this College in said Convention. The Chair appointed Messrs Colt, Needham and Bowker, who reported the names of Mr. Grinnell, Prof. Goessman and Col. Needham, with power of substitution, and they were unanimously elected.

The Chairman then read the following communication:

Worcester, June 17, 1885.

George Noyes, Esq.,
Secretary of Trustees of Mass. Agricultural College.

Dear Sir:

I hereby give notice that the term to which O. B. Hadwen was elected to the Board of Control of the Mass. Experiment Station expires July next. Please give notice to the Trustees, and oblige, Yours truly,

O. B. Hadwen, Secretary
of Board of Control
Mass. Experiment Station.

The Chair requested the meeting to prepare their ballots for the election of a Trustee to represent the Board on the Board of Control of the Experiment Station; it being understood that Mr. Hadwen is not now eligible to reelection from the board he being no longer a Trustee of the College. Several ballots were thereupon taken which finally resulted in the election of Benj. P. Ware, for a term of three years from July, 1885.

Voted, On motion of Col. Needham, That the thanks of this Board be given to Mr. Hadwen for his faithful and gratuitous services as our representative on the Board of Control of the Experiment Station.

President Greenough then brought forward the subject of the management of the Boarding House for the Students of the College, and it was Voted, to refer the whole matter to the Executive Committee.

Commonwealth of Massachusetts,

Executive Department,

Boston, July 25, 1885.

George Noyes, Esq, Sec'y, &c., Dear Sir:-

The Governor directs me to acknowledge

the receipt of your letter of 24th ult. and to enclose a copy of a communication from the Attorney General giving his opinion upon the right and duty of the Trustees to insure the Agricultural College buildings. The following is the language of the Attorney General.

"The last clause of Sec. 39, Ch. 6, P.S. relates only to property of the Commonwealth. The title to the land and buildings of the Massachusetts Agricultural College is not in the Commonwealth, and it would seem to be the "right" and "duty" of the trustees to determine the question of insurance."

Boston, Feb. 4th, 1886.

Trustees of the Mass. Agricultural College,

Gentlemen:- I desire to make a statement to you in regard to a subscription of $1000, which I made and paid over to the President of the College for the purpose of establishing a Library Fund. This subscription was made in consideration & on the express condition and understanding, that the fund should be made up to Ten Thousand dollars, & kept-

contract for all future time the interest only to be used for the purchase of books for the library. So far as I can learn this condition was not even complied with; nor is it likely to be so far as it was at present intended. Under the circumstances it seems but just & right that the subscription, paid over under a misapprehension & misunderstanding of the facts, should be returned to me by your Treasurer, and it is my request that you authorize him to do this without delay. With the highest respect I am Very truly your obt servt

(signed) Charles L. Flint.

A discussion followed the reading of the letter during which the Governor questioned the right of the Trustees to return said subscription without a favorable opinion from the proper legal authorities. It was therefore Voted, To recommit the report of the committee with instructions to hold a further conference with Mr. Flint, before the Board asks the opinion of the Attorney General, and report at the next meeting.

person to decline and hereby tender my resignation of the duties of the office. Convey, if you please, to the trustees, my acceptance of the position they offer me, and my appreciation of this new expression of their esteem. Very truly,

Geo. Voyes, Esq., Secretary, Board of Trustees, Mass. Agricultural Col.,

Sir:- Referring to the notification from you, dated June 22nd, I wish to say that I highly appreciate the honor of an election as Professor of Agriculture of the Massachusetts Agricultural College, and return my thanks for this action on the part of your Board, in its personal bearings. After such consideration as the short time has permitted, I find it impossible to unconditionally accept the position, because of obligations resting upon me to perform certain duties before January next, which cannot be honorably avoided, But I venture to make this proposition:- I will accept the professorship and enter upon the duties at the opening of the next term of the college performing the duties to the satisfaction of the President and Com. of Trustees on Course of Study and Faculty so far as I am able, provided I may be permitted short absences and opportunity for executing certain ag-

months next prior to January next under the obligations previously referred to. My compensation to be one quarter's salary for services in 1886, and the use of the house assigned me, from and after the 25th of August. I dislike to raise this doubt, but can do no better and as your honorable Board is soon to meet, no serious delay can result, while I trust that if my conditions are regarded as unexpedient there will be no hesitation in refusing them. Please inform me of the action of the Board as soon as possible. Very respectfully yours.

Resolved, That in the death of William Knowlton the Trustees have lost a most efficient worker, and the College a friend who was always ready with his voice and means to contribute to its welfare and developement.

Resolved, That in the hearty and cordial support continuously given by our departed associate we recognize a man who hampered by disease and suffering for many years with excessive pain, triumphed over his great physical disabilities in a manly recognition of his public obligation to personal ease.

Resolved, That we mourn his loss and direct the Secretary to forward a copy of these resolutions to the family of the deceased, and spread the same upon the records.

The Chair appointed Hon. Daniel Needham a Special Committee to report resolutions in commemoration of the late Marshall P. Wilder.

Col. Needham reported as follows:—

Resolved, That in the death of **Marshall P. Wilder** this Board of Trustees has met with an irreparable loss;—the loss of a man who gave himself and his means readily, heartily and continuously to the great interests of elevating agricultural labor to be the peer of professional labor in the most pronounced departments of human industry; a man who sought to secure for the people interested in agriculture the highest intellectual training and to so dignify the labor of the husbandman as to make it attractive to the largest minds by a developement not only of its kinship to the highest qualities of man's nature but by illustrating its immense scope in making necessary gleanings from the entire field of science as essential to a perfect, practical and economic working of the relation of the man to the soil; and that he has erected an imperishable monument in books—in shrubs and flowers—in trees and in institutions for the benefit and elevation of his fellows written and wrought by his own mind and hand.

Resolved, That in Marshall P. Wilder we recognize the first American advocate of the Agricultural College, and that by his public and

private efforts the foundation was laid which culminated in the National act which under the leadership of Hon. Justin S. Morrill brought forth by National legislation the Agricultural College as it now exists in the several States of the Union.

Resolved, That added to his great devotion to the cause of Agricultural knowledge and intellectual and practical development we recognize in him under all circumstances, whether of triumph or temporary defeat, the earnest statesman and the true-hearted, generous man who never failed to so recognize humanity that side by side on the same broad platform of citizenship and manhood, the humblest laborer was elevated and made an equal as he listened in the field or the lecture room to his words of counsel and judgment.

Resolved, That no language of ours can express the great loss we feel in his demise, and that we tender our heartfelt sympathy to his bereaved family.

Resolved, That a copy of these resolutions be sent to the family of the deceased and inscribed upon the records of the Trustees of the College.

When you did me the honor last year to elect me to that position, I hesitated long before accepting it, feeling that my health was inadequate to the responsibilities and care attending it, and it was only at the earnest solicitation of my friends that I yielded. But I feel that my strength will not permit of this continued drain upon it, and that it is merely a question of time when I shall be compelled to lay down these duties — I therefore tender my resignation now, before the time comes when I can neither be a credit to yourselves nor to myself. Mass'tts Agricultural College.
Amherst.

Dear sir:-

Resignation of Prof. H. E. Alvord.

In accordance with a notice of intention, heretofore given,- I now tender to you, and through you to the Board of Trustees of this institution - my resignation as Professor of Agriculture, in this college, with the duties attached,- the same to take effect immediately.

It is with the utmost regret, that I thus sever my connection with this College, which for years has had my warmest interest and friendship,- and break the more than cordial relations existing with yourself and my associates on the faculty of instruction.

Nevertheless, circumstances indicate that this is the wisest action on my part.

With highest personal regard,- and my very best wishes for you, your assistants and the College, I remain-

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That there shall be, and hereby is, annually appropriated, out of any money in the Treasury not otherwise appropriated, arising from the sales of public lands, to be paid as hereinafter provided, to each State and Territory for the more complete endowment and maintenance of colleges for the benefit of agriculture and the mechanic arts now established, or which may be hereafter established, in accordance with an act of Congress approved July second, eighteen hundred and sixty-two, the sum of fifteen thousand dollars for the year ending June thirtieth, eighteen hundred and ninety, and an annual increase of the amount of such appropriation thereafter for ten years by an additional sum of one thousand dollars over the preceding year, and the annual amount to be paid thereafter to each State and Territory shall be twenty-five thousand dollars to be applied only to instruction in agriculture, the mechanic arts, the English language and the various branches of mathematical, physical, natural and economic science, with special reference to their applications in the industries of life, and to the facilities for such instruction: *Provided*, That no money shall be paid out under this act to any State or Territory for the support and maintenance of a college where a distinction of race or color is made in the admission of students, but the establishment and maintenance of such colleges separately for white and colored students shall be held to be a compliance with the provisions of this act if the funds received in such State or Territory be equitably divided as hereinafter set forth: *Provided*, That in any State in which there has been one college established in pursuance of the act of July second, eighteen hundred and sixty-two, and also in which an educational institution of like character has been established, or may be hereafter established, and is now aided by such State from its own revenue, for the education of colored students in agriculture and the mechanic arts, however named or styled, or whether or not it has received money heretofore under the act to which this act is an amendment, the Legislature of such State may propose and report to the Secretary of the Interior a just and equitable division of the fund to be received under this act between one college for white students and one institution for colored students established as aforesaid, which shall be divided into two parts and paid accordingly, and thereupon such institution for colored students shall be entitled to the benefits of this act and subject to its provisions, as much as it would have been if it had been included under the act of eighteen hundred and sixty-two, and the fulfillment of the foregoing provisions shall be taken as a compliance with the provision in reference to separate colleges for white and colored students.

SEC. 2. That the sums hereby appropriated to the States and Territories for the further endowment and support of colleges shall be annually paid on or before the thirty-first day of July of each year, by the Secretary of the Treasury, upon the warrant of the Secretary of the Interior, out of the Treasury of the United States, to the State or Territorial treasurer, or to such officer as shall be designated by the laws of such State or Territory to receive the same, who shall, upon the order of the trustees of the college, or the institution for colored students, immediately pay over said sums to the treasurers of the respective colleges or other institutions entitled to receive the same, and such treasurers shall be required to report to the Secretary of Agriculture and to the Secretary of the Interior, on or before the first day of September of each year, a detailed statement of the amount so received and of its disbursement. If the Secretary of the Interior shall withhold a certificate from any State or Territory of its appropriation the facts and reasons therefor shall be reported to the President, and the amount involved shall be kept separate in the Treasury until the close of the next Congress, in order that the State or Territory may, if it should so desire, appeal to Congress from the determination of the Secretary of the Interior. EXPERIMENT STATION LAW.

Full Text (Official) of the Hatch Act, the Appropriation for which Has Just Been Made by Congress.

An act to establish agricultural experiment stations in connection with the colleges established in the several states under the provisions of an act approved July 2, 1862, and of the acts supplementary thereto.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, that in order to aid in acquiring and diffusing among the people of the United States useful and practical information on subjects connected with agriculture, and to promote scientific investigation and experiment respecting the principles and applications of agricultural science, there shall be established, under direction of the college or colleges or agricultural department of colleges in each state or territory established, or which may hereafter be established, in accordance with the provisions of an act approved July 2, 1862, entitled "An act donating public lands to the several states and territories which may provide colleges for the benefit of agriculture and the mechanic arts," or any of the supplements to said act, a department to be known and designated as an "agricultural experiment station;" Provided, that in any state or territory in which two such colleges have been or may be so established the appropriation hereinafter made to such state or territory shall be equally divided between such colleges, unless the Legislature of such state or territory shall otherwise direct.

WORK OF THE STATIONS.

Sec. 2. That it shall be the object and duty of said experiment stations to conduct original researches or verify experiments on the physiology of plants and animals; the diseases to which they are severally subject, with the remedies for the same; the chemical composition of useful plants at their different stages of growth; the comparative advantages of rotative cropping as pursued under a varying series of crops; the capacity of new plants or trees for acclimation; the analysis of soils and water; the chemical composition of manures, natural or artificial, with experiments designed to test their comparative effects on crops of different kinds; the adaptation and value of grasses and forage plants; the composition and digestibility of the different kinds of food for domestic animals; the scientific and economic questions involved in the production of butter and cheese; and such other researches or experiments bearing directly on the agricultural industry of the United States as may in each case be deemed advisable, having due regard to the varying conditions and needs of the respective States or Territories.

UNIFORMITY OF METHODS.

Sec. 3. That in order to secure, as far as practicable, uniformity of methods and results in the work of said stations, it shall be the duty of the United States commissioner of agriculture to furnish forms, as far as practicable, for the tabulation of results of investigation or experiments; to indicate, from time to time, such lines of inquiry as to him shall seem most important; and, in general, to furnish such advice and assistance as will promote the purposes of this act. It shall be the duty of each of said stations annually, on or before the first day of February, to make to the governor of the state or territory in which it is located a full and detailed report of its operations, including a statement of receipts and expenditures, a copy of which report shall be sent to each of said stations, to the said commissioner of agriculture, and to the secretary of the treasury of the United States.

BULLETINS FREE.

Sec. 4. That bulletins or reports of progress shall be published at said stations at least once in three months, one copy of which shall be sent to each newspaper in the states or territories in which they are respectively located, and to such individuals actually engaged in farming as may request the same, and as far as the means of the station will permit. Such bulletins or reports and the annual reports of said stations shall be transmitted in the mails of the United States free of charge for postage, under such regulations as the Postmaster General may from time to time prescribe.

Sec. 5. That for the purpose of paying the necessary expenses of conducting investigations and experiments and printing and distributing the results as hereinbefore prescribed, the sum of $15,000 per annum is hereby appropriated to each state, to be specially provided for by Congress in the appropriations from year to year, and to each territory entitled under the provisions of section eight of this act, out of any money in the treasury proceeding from the sales of public lands, to be paid in equal quarterly payments, on the first day of January, April, July and October in each year, to the treasurer or other officer duly appointed by the governing boards of said colleges to receive the same, the first payment to be made on the first day of October, 1887. Provided, however, That out of the first annual appropriation so received by any station an amount not exceeding one-fifth may be expended in the erection, enlargement, or repair of a building or buildings necessary for carrying on the work of such station; and therefore an amount not exceeding five per centum of such annual appropriation may be so expended.

SURPLUS FUNDS.

Sec. 6. That whenever it shall appear to the Secretary of the Treasury from the annual statement of receipts and expenditures of any of said stations that a portion of the preceding annual appropriation remains unexpended, such amount shall be deducted from the next succeeding annual appropriation to each station, in order that the amount of money appropriated to any station shall not exceed the amount actually and necessarily required for its maintenance and support.

Sec. 7. That nothing in this act shall be construed to impair or modify the legal relation existing between any of the said colleges and the government of the states or territories in which they are respectively located.

STATIONS INDEPENDENT OF COLLEGES.

Sec. 8. That in states having colleges entitled under this section to the benefits of this act and having also agricultural experiment stations established by law separate from said colleges, such states shall be authorized to apply such benefits to experiments at stations so established by such states; and in case any state shall have established under the provisions of said act of July 2d aforesaid, an agricultural department or experimental station, in connection with any university, college or institution not distinctively an agricultural college or school, and such state shall have established or shall hereafter establish a separate agricultural college or school, which shall have connected therewith an experimental farm or station, the Legislature of such state may apply in whole or in part the appropriation by this act made, to such separate agricultural college or school, and no Legislature shall by contract express or implied disable itself from so doing.

Sec. 9. That the grants of moneys authorized by this act are made subject to the legislative assent of the several states and territories to the purposes of said grants: Provided, that payment of such instalments of the appropriation herein made as shall become due to any state before the adjournment of the regular session of its Legislature meeting next after the passage of this act shall be made upon the assent of the governor thereof duly certified to the Secretary of the Treasury.

Sec. 10. Nothing in this act shall be held or construed as binding the United States to continue any payments from the treasury to any or all the states or institutions mentioned in this act, but Congress may at any time amend, suspend or repeal any or all the provisions of this act.

Approved, March 2, 1887.

U. S. Senate Feb. 16, 1888.

The appropriation for experiment stations under the Hatch act are now available. The Senate on Monday passed without opposition the appropriation bill for the purpose, which had been enacted in the House two weeks ago, and on Tuesday the measure received President Cleveland's signature. The appropriation dates from Oct 1, and being payable quarterly in advance, two quarters or $7500 are now due to each state and territory that comply with the act. The first controller of the currency has decided several questions in relation to this experiment station act as follows:

He decides, first, that the accounts of the various expenditures made at the various colleges and stations should not be sent to the treasury department and there settled and adjusted, but that a report, including receipts and expenditures, should be made to the governors of the states and territories where located, and a copy of the report must be sent to the secretary of the treasury. In New York there is an agricultural college and an agricultural station. The controller decides that the funds which may be appropriated by Congress to that state, under the act of March 3, 1887, do not go exclusively to the college, unless the state of New York so directs. The state should indicate to the secretary of the treasury what is its will in that regard. He also decides that if there is no agricultural college or station in a state or territory, but there is a college, such state or territory would not be entitled to the benefits of the provisions of said act of March 3, 1887, unless an agricultural college be established, or a station connected with some college already established, that the establishment of a station disconnected from the ordinary college will not suffice.
